

TRANSMISSION & DISTRIBUTION INVESTMENT

ATCO

TRANSMISSION & DISTRIBUTION INVESTMENT

It is a transformative time for the global electricity industry. As a key player in this market, we help you navigate new infrastructure investment and manage the full lifecycle of transmission and distribution projects – from design and construction, to ownership and maintenance.

GRID RELIABILITY YOU CAN COUNT ON

Whether you are located in Alberta or on the other side of the world, ATCO provides BOOM (build, own, operate and maintain) transmission and distribution infrastructure solutions. Our team of experts will work with you to ensure the success of your electricity project.

We offer:

- Expertise in regulated and non-regulated electricity transmission and distribution
- Flexible commercial agreements to support your business needs

HOW OUR SOLUTIONS WORK FOR YOU

Take control of costs

In addition to reducing up-front capital expenditures, you have the ability to predict your operations and maintenance budgets

Focus on what you do best

We own and operate the electric system so you can focus exclusively on your core business requirements

Plan more effectively

Reduce downtime through effective operations and maintenance planning

WHY ATCO

We know electricity

In ATCO, you have a partner with comprehensive in-house experience owning and operating transmission and distribution infrastructure. We build, own, operate and maintain 88,000 km of transmission and distribution lines, plus hundreds of substations globally.

We keep the lights on

Reliable electricity service is our commitment to the industrial customers and communities we work with across Alberta, Canada's North and around the world.

We keep things simple

We understand Alberta, the Northwest Territories and the Yukon's often complex regulatory processes, and we navigate them every day for our own business. You can be confident that your project will meet the electricity industry's regulatory and code requirements, both in this jurisdiction and in many others.

We deliver projects on time and on budget

Leverage our extensive experience as an owner and operator to ensure your project is delivered exactly when and how you need it, with assets that remain reliable.

ONE COMPANY, INFINITE POSSIBILITIES

With diverse products and services across many industries, we are a one-stop provider of integrated energy, housing, transportation and infrastructure solutions.

We provide customers with innovative, sustainable solutions in the sectors that are fundamental to global growth and prosperity: housing, real estate, energy, water, transportation and agriculture. From the delivery of efficient and reliable energy for homes, businesses and communities, to affordable temporary and permanent buildings, we build communities, energize industries and deliver customer-focused solutions like no other company in the world.
